ADORR

At ADOR Defense, we design, develop and manufacture various types of military grade, high quality, durable technical textile products, ranging from **Propellant Bags for Artillery Shells** to **Military Uniforms**, as well as **Parachute Systems for the use of Armed Forces in Illuminating Ammunition Systems** or other platforms.

Our primary objective at ADOR is to apply **cutting edge technology** to our designs so as to ensure overall endurance and ruggedness of our Products for harsh conditions.

Thanks to our distinctive expertise in Military / Technical Grade Textile design and **advanced machinery**, we are successfully supplying large quantities of **Propellant Bags** and other types of military grade products to various domestic and international large caliber ammunition manufacturers.

ADOR is also cooperating with various clients and manufacturers from different countries in the field of ***Defense Trading, Ammunition & Raw Materials Procurement and Business Development Services.**
